### Location

The land is located on the outskirts of the picturesque village of Whitney-on-Wye in western Herefordshire. Situated in the hamlet known as 'Millhalf' the land benefits from close proximity to the A438 being located approximately 1 mile from the main road, benefitting from road frontage onto The Wood Road to the west and a further lane to the east.

The land has the benefit of the Millhalf Brook running through the parcels providing pleasant recreational appeal as well as a source of natural watering. Historically there was a leat above Millhalf Brook which provided water to the adjacent watermill. The water has since been diverted back to the main brook, however there remains an attractive tree-lined track perfect for walking or horse riding.

### Description

The land known as 'The Mill' at Whitney on Wye provides prospective purchasers with an exciting and rare opportunity to acquire attractive parcels of amenity land in this area. The land is divided into two main parcels, the first comprising of around 4.87 acres of pastureland and woodland with a further parcel of around 8.04 acres of pasture and mature woodland with attractive natural watering. The land is offered for sale as a Whole or in 2 Lots.

## Lot 1

Lot 1 extends in total to around 4.87 acres, comprising around 3.10 acres of permanent pastureland and around 1.77 acres of attractive mature woodland. The land benefits from roadside access to the west off the Wood Road providing good vehicular access into the parcel. The land is bound by mature hedgerows to the north, south and west - adjoining the woodland which forms Lot 2 on the eastern boundary. This attractive parcel offers an ideal block of amenity land, with open grassy areas well suited to camping, recreational use and associated parking, subject to all necessary consents.

Within the woodland on the eastern boundary there is access to the stream providing a natural water supply for livestock. The successful purchaser will be required to erect a stockproof fence between A and B and between C and D to create stockproof boundaries within 1 month of completion. The purchaser will be responsible for any temporary stock fencing in the interim.

Lot 1 provides prospective purchasers with a wide range of opportunities for recreational, environmental or equestrian interests, subject to all necessary consents, with the benefit of an unspoilt rural location with picturesque views over the Welsh border.

## Lot 2

Lot 2 extends to around 8.05 acres in total, comprising around 1.62 acres of permanent pasture and around 6.42 acres of mature woodland. This attractive parcel offers an ideal block of amenity land, with open grassy areas well suited to camping, recreational use, and associated parking, subject to all necessary consents. The property benefits from a natural water supply provided by Milhalf Brook, which meanders through the land and creates several deeper pools suitable for paddling and wild bathing.

A significant feature of the lot is its extensive area of mature woodland, providing both privacy and a rich natural habitat. The land also includes the remnants of a former leat, which historically diverted water from Milhalf Brook to the mill located adjacent to the southern boundary. Although no longer operational, the leat remains a charming feature and now forms an attractive woodland walkway, offering an appealing route through the trees and enhancing the recreational appeal of the property. The woodland slopes steeply from the east to the former mill leat and then slopes gently towards the Millhalf Brook.

Lot 2 offers vehicular access from the Wood Road, bound by mature hedgerows to the western boundary. The Lot also adjoins the Brilley road but there is no access gateway. Prior to completion the Vendor will erect a stockproof fence between points E to F on the southern boundary.
